Šablona: II/2 Inovace a zkvalitnění výuky cizích jazyků na středních školách

Sada: 2 AJ

Číslo: VY_22_INOVACE_PRO_2ROC_06

Technical English

Předmět:	Anglický jazyk
Ročník:	2.OZ
Klíčová slova:	objects, tools, job
Jméno autora:	Mgr. Jolana Čechová
Adresa školy:	Střední škola zemědělská, Osmek 47 750 11 Přerov

Technical English

Components

What is a component?

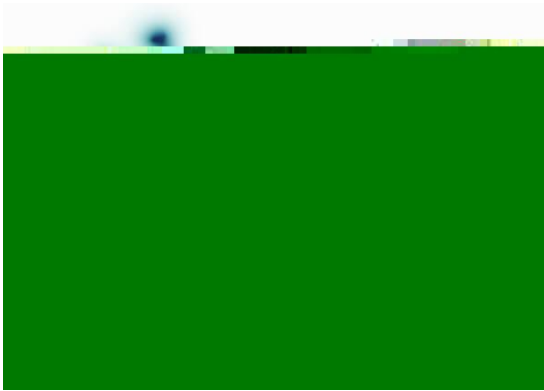

- The component is a part of something.
- People use components to connect parts together.
- Components enable machines or parts of machines to hold together or to make some movement.
- Components can be made of metal, steel, plastic etc.

Technical English

Components

- 1) To join two parts together or to fix things you need nails, screws, bolts, nuts, pins and dowels. These components can be of various shapes and material.

nails

a screw

bolts and nuts

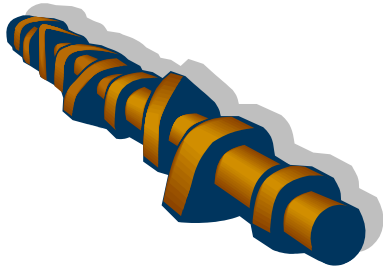

a safety- pin

Technical English

Components

2) To make other parts of machine move we use shafts or toothed wheel and chain or V-belt.

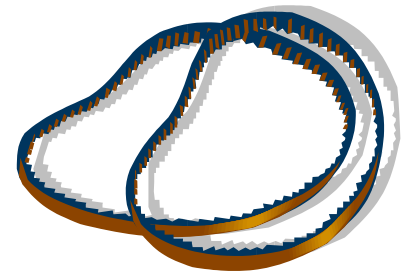

a shaft

toothed wheels

a chain

V- belts

Technical English

Components

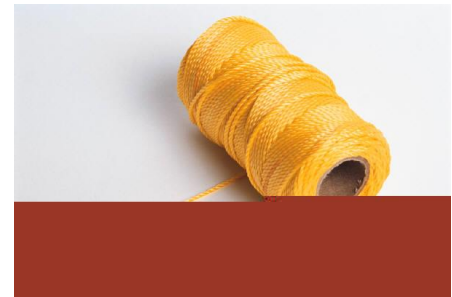

3) To tie something together or to something we use ropes, wires, cords, strings or bands

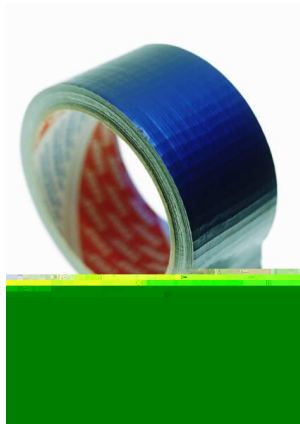

ropes and cord

wires and band

strings

Technical English

Components

4) To change some damaged part of a machine we use spare parts. Plants cannot operate without these spare parts.

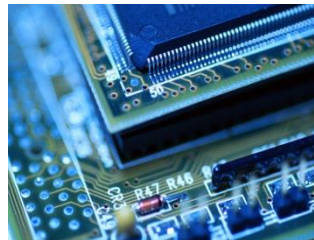

wheel

a bulb

a spark plug

chips

a switch

Technical English

Components
